3. Be sure to do your pre and post trip inspections.
4. Don't forget to do your load checks

ALERT

A NEW SCALE IS IN PLACE AT THE JUNCTION OF M-95 AND US-2. If you are heading to Marquette with a water run for Norway Springs be aware of this!

WEATHER WATCH

Rain

- Slow down and allow extra space between you and the vehicle in front of you
- Use windshield wipers
- Use your headlights on low beam to make your truck visible to other drivers. Low beams cause less reflection during rain

Snow/Ice

- Scrape snow and ice from windshield for better visibility
- Drive slower and increase following distance
- Watch for slick spots on bridges and overpasses

GUESSING JAR

Each month we will have a guessing jar in the entryway. Each employee can guess 2 times/month. At the end of the month the person closest to the right amount wins the jar and whatever is in it!
